May you enjoy all of your great opportunities, and may they be filled with happiness and joy! Gemini Life Path Horoscope 2018 Cusp divination: As the year of the Sheep and Capricorn end in their sign and our Sun begins in Scorpio, this gives us a good sign. The Sun in Scorpio is our personal Sun, and in its most expansive and healing phase. Scorpio gives us the opportunity to embrace deep, hard and analytical emotions for good. This is a good time to go through the motions of emotions. More so, we can work through a lot of negative emotions. If we feel the urge to cling, we can let go of that. The Scorpio energy can motivate us to work on our personal growth and self-improvement. It's not about money, but about creating ourselves into an empowered individual that can make the most of life. Horoscope Sagittarius 2018 His agenda is not as clear as your to-do list, but he will set out to have an amazing year. You may not know where the road will lead you, but you can certainly go there together. By the end of the year, he will grow emotionally. If you are willing to show him your vulnerability, he will repay you with a tender heart. Don't ask him to solve your problems. For now, focus on yourself. That will attract him to you. Put yourself first for a while. He will adore you and want to make you happy. Capricorn and Capricorn Love Horoscope Capricorn and Capricorn compatibility: Work and career, which will be good in most situations, are stronger than romantic attraction, however. If you are both hard-working, grounded and have good communication skills, you might just be able to get past your desire to get more than what you are paying for. In fact, you may find yourself being attracted to the idea of a longterm commitment. If this happens, be careful about moving too fast. 82157476af
